

Step back in time to an era when prospecting was a way of life, and panning for gold created excitement like no other event in history. Imagine the thrill of discovering valuable gems, minerals and fossils!

THE MINE

As you enter The Mine, you will experience firsthand the adrenaline rush as you discover gems and fossils in the dark walls of the cave. To make your expedition authentic, you will be fitted with a miner's hat with light, and a pail to collect your beautiful specimens. Imbedded in the walls of the cave you will see fossil reproductions from creatures of by-gone eras.

AUTHENTIC GEMSTONE SLUICE

After completing your mining experience, every prospector needs to learn how to sift, too. This experience will be available at our gemstone sluice. Purchase a bag of mining rough and discover real gems, arrowhead, crystal point, fossils, emeralds and rubies from all over the world. The whole family will have fun as they watch the water wash away the mining rough and reveal their treasure. Each miner will receive an identification brochure to help identify their new gems.

MENU OF SERVICES

A Educational Mining Attraction at Your Location

We Offer:

Whatever your event may be, we will arrive with The Mine (a portable gem mine) and our authentic gemstone sluice and set up at your location. We will come two hours before your event to completely set up. Our set-up requirements are a source of water for a one-time fill, electricity and a minimum set-up area of 24' x 20'. A visitor in The Mine will be fitted with a lighted hat and pail and can expect to find approximately 18 items. Sluicing prospectors will choose from gemstone or fossil mining rough bags along with an identification brochure and sift out their treasures in our water-filled sluice. Miners will pay a fee for entrance into The Mine or will purchase their mining rough bags from us unless the event is contracted, we will then negotiate a contract that will suit the event. We guarantee that all of our miners will receive the amount of items promised.

As a bonus, we offer a free visit to our Discovery Table. Experience firsthand the creatures that once roamed the earth! Visitors can examine fossilized woolly mammoth rib bone and joint, whale vertebrae, mosasaur tooth, shark's tooth in matrix, spinosaurus tooth, dinosaur scat, dinosaur egg, assortment of crystals, geodes and other rocks, fossils and minerals. These are museum quality specimens you may pick up and examine.

We offer a table of stone and fossil items for sale. Items will vary depending on availability.

Please call for pricing on special events. Our location is Port Hope and some events will require additional mileage compensation.
